# Sentiment Assignment

## June 18, 2025

# 1 ADS 509 Sentiment Assignment

This notebook holds the Sentiment Assignment for Module 6 in ADS 509, Applied Text Mining. Work through this notebook, writing code and answering questions where required.

In a previous assignment you put together Twitter data and lyrics data on two artists. In this assignment we apply sentiment analysis to those data sets. If, for some reason, you did not complete that previous assignment, data to use for this assignment can be found in the assignment materials section of Blackboard.

## 1.1 General Assignment Instructions

These instructions are included in every assignment, to remind you of the coding standards for the class. Feel free to delete this cell after reading it.

One sign of mature code is conforming to a style guide. We recommend the Google Python Style Guide. If you use a different style guide, please include a cell with a link.

Your code should be relatively easy-to-read, sensibly commented, and clean. Writing code is a messy process, so please be sure to edit your final submission. Remove any cells that are not needed or parts of cells that contain unnecessary code. Remove inessential `import` statements and make sure that all such statements are moved into the designated cell.

Make use of non-code cells for written commentary. These cells should be grammatical and clearly written. In some of these cells you will have questions to answer. The questions will be marked by a "Q:" and will have a corresponding "A:" spot for you. *Make sure to answer every question marked with a `Q:` for full credit.*

```python
[30]: import os
      import re
      import emoji
      import pandas as pd
      import numpy as np

      from collections import Counter, defaultdict
      from string import punctuation

      from nltk.corpus import stopwords

      sw = stopwords.words("english")
```

```
[31]:  # Add any additional import statements you need here

       import string
       import seaborn as sns
       import matplotlib.pyplot as plt
```

```
[32]:  # change `data_location` to the location of the folder on your machine.
       #data_location = "/users/rsadeghian/textmining/ads-tm-api-scrape/"

       # These subfolders should still work if you correctly stored the
       # data from the Module 1 assignment
       twitter_folder = "/Users/sahilwadhwa/M1 Results/twitter/"
       lyrics_folder = "/Users/sahilwadhwa/M1 Results/lyrics/"

       positive_words_file = "/Users/sahilwadhwa/positive-words.txt"
       negative_words_file = "/Users/sahilwadhwa/negative-words.txt"
       tidy_text_file = "/Users/sahilwadhwa/tidytext_sentiments.txt"
```

## 1.2 Data Input

Now read in each of the corpora. For the lyrics data, it may be convenient to store the entire contents of the file to make it easier to inspect the titles individually, as you'll do in the last part of the assignment. In the solution, I stored the lyrics data in a dictionary with two dimensions of keys: artist and song. The value was the file contents. A Pandas data frame would work equally well.

For the Twitter data, we only need the description field for this assignment. Feel free all the descriptions read it into a data structure. In the solution, I stored the descriptions as a dictionary of lists, with the key being the artist.

```
[33]:  # Read in the lyrics data
       lyrics_data = {}
       for artist in os.listdir(lyrics_folder):
           join = os.path.join(lyrics_folder, artist)
           if os.path.isdir(join):
               lyrics_data[artist] = {}
               for file in os.listdir(join):
                   path = os.path.join(join, file)
                   if os.path.isfile(path):
                       with open(path, 'r', encoding='utf-8') as f:
                           read = f.read()
                           title = os.path.splitext(file)[0]
                           lyrics_data[artist][title] = read
```

```
[34]:  # Read in the twitter data
       twitter_data = {}
       for artist_file in os.listdir(twitter_folder):
           join = os.path.join(twitter_folder, artist_file)
```

```python
        if os.path.isfile(join) and artist_file.endswith("_followers_data.txt"):
            artist = artist_file.replace("_followers_data.txt", "")
            twitter_data[artist] = []

            with open(join, 'r', encoding='utf-8') as f:
                for line in f:
                    text = line.strip()
                    twitter_data[artist].append(text)
```

```python
[35]: # Read in the positive and negative words and the
      # tidytext sentiment. Store these so that the positive
      # words are associated with a score of +1 and negative words
      # are associated with a score of -1. You can use a dataframe or a
      # dictionary for this.

      sentiment_data = {}

      #Positivve
      with open(positive_words_file, 'r', encoding = 'utf-8') as pf:
          for line in pf:
              word = line.strip().lower()
              if word and not word.startswith(";"):
                  sentiment_data[word] = 1

      #Negative
      with open(negative_words_file, 'r', encoding='utf-8') as nf:
          for line in nf:
              word = line.strip().lower()
              if word and not word.startswith(";"):
                  sentiment_data[word] = -1

      #Tidy
      tidytext_df = pd.read_csv(tidy_text_file, sep='\t')
      tidytext_df['assign'] = tidytext_df['sentiment'].map({'positive': 1, 'negative':
       ↪ -1})
      tidy_dict = dict(zip(tidytext_df['word'], tidytext_df['assign']))
      sentiment_data.update(tidy_dict)
```

## 1.3  Sentiment Analysis on Songs

In this section, score the sentiment for all the songs for both artists in your data set. Score the sentiment by manually calculating the sentiment using the combined lexicons provided in this repository.

After you have calculated these sentiments, answer the questions at the end of this section.

```python
[36]: # your code here
```

```python
sentiments = []
for artist, songs in lyrics_data.items():
    for title, lyrics in songs.items():
        cleaned = lyrics.lower()
        cleaned = cleaned.translate(str.maketrans('', '', string.punctuation))
        words = cleaned.split()
        score = sum(sentiment_data.get(word, 0) for word in words)
        sentiments.append({
            "artist": artist,
            "song": title.replace(f"{artist}_", ""),
            "sentiment_score": score
        })

# Create a DataFrame with the results
sentiment_df = pd.DataFrame(sentiments)
sentiment_df.head()
```

```
[36]:   artist          song  sentiment_score
     0  robyn   includemeout               12
     1  robyn       electric               23
     2  robyn      beach2k20               26
     3  robyn      lovekills              -24
     4  robyn    timemachine               -8
```

### 1.3.1 Questions

Q: Overall, which artist has the higher average sentiment per song?

A: The artist with the higher average sentiment is robyn

---

Q: For your first artist, what are the three songs that have the highest and lowest sentiments? Print the lyrics of those songs to the screen. What do you think is driving the sentiment score?

A: The songs with the three highest sentiments are loveisfree, wedancetothebeat114528 and wedancetothebeat. The songs with the three lowest sentiments are dontfuckingtellmewhattodo, dontfuckingtellmewhattodo114520 and criminalintent. I think the sentiment scores is being driven by the positive or negative words used in the lyrics

---

Q: For your second artist, what are the three songs that have the highest and lowest sentiments? Print the lyrics of those songs to the screen. What do you think is driving the sentiment score?

A: The songs with the three highest sentiments are loveandunderstanding, ifoundyoulove and perfection. The songs with the three lowest sentiments are bangbang, bangbangmybabyshotmedown and outrageous. I think the sentiment scores is being driven by the positive or negative words used in the lyrics

---

Q: Plot the distributions of the sentiment scores for both artists. You can use `seaborn` to plot densities or plot histograms in matplotlib.

```python
[37]:  #Question1
       artist_avg = sentiment_df.groupby('artist')['sentiment_score'].mean()
       print(artist_avg)

       #Question2
       first_artist = sentiment_df['artist'].unique()[0]
       songs = sentiment_df[sentiment_df['artist'] == first_artist]
       top3_high = songs.nlargest(3, 'sentiment_score')
       top3_low = songs.nsmallest(3, 'sentiment_score')
       print(top3_high, top3_low)
       for s in top3_high['song']:
           print(s)
           print(lyrics_data[first_artist][f"{first_artist}_{s}"])

       for s in top3_low['song']:
           print(s)
           print(lyrics_data[first_artist][f"{first_artist}_{s}"])
```

```

"Love Is Free"

Free
Love is free, baby
Free
Love is free, baby
Boom boom boom boom boom chica boom
Let me give it to you, baby
Chica boom chica boom chica boom
Chica boom chica boom chica boom
Free
Love is free, baby
```

Free
Love is free, baby
Boom boom boom boom boom chica boom
Let me give it to you, baby

I'ma give it to you, baby
I'ma give it when I'm ready
Some lose, some steady
Some light, some heavy
It's all over this city
Sometimes in the ugly, sometimes in the pretty
You never know where you get it cause you can't control it and you can't unfold
it, slow down

I'ma give it to you, baby
I'ma give it when I'm ready
Some lose, some steady
Some light, some heavy
It's all over this city
Sometimes in the ugly, sometimes in the pretty
You never know where you get it cause you can't control it and you can't unfold
it, slow down

Free
Love is free, baby
Free
Love is free, baby
Boom boom boom boom boom chica boom
Let me give it to you, baby
Yeah! Yeah! Yeah! Yeah!
Love is free, baby
Love is free, baby

I'ma give it to you, baby
I'ma give it like a motha
Safe like a rubber
Mutter like a stutter
It's all over this city
Sometimes in the nitty, sometimes in the gritty
You know I'ma give it to you better
I'ma give you love forever
No, you can't control it, slow down

I'ma give it to you, baby
I'ma give it like a motha
Safe like a rubber
Mutter like a stutter
It's all over this city

Sometimes in the nitty, sometimes in the gritty
You know I'ma give it to you better
I'ma give you love forever
No, you can't control it, slow down

Free
Love is free, baby
Free
Love is free, baby
Boom boom boom boom boom chica boom
Let me give it to you, baby
Boom boom boom boom boom
Chica boom chica boom chica boom
Boom boom boom boom boom
Chica boom chica boom chica boom
Free

criminalintent
"Criminal Intent"

Somebody alert the authorities, I got criminal intent
Conspiracy to engage in lewd and indecent acts and events
I'mma wind it, grind it, oh my, I'mma say it again
Somebody alert the authorities, she's got criminal intent

Somebody alert the authorities, I got criminal intent
Conspiracy to engage in lewd and indecent acts and events
I'mma wind it, grind it, oh my, I'mma say it again
Somebody alert the authorities, she's got criminal intent

Somebody alert the authorities, I got criminal intent
Conspiracy to engage in lewd and indecent acts and events
I'mma wind it, grind it, oh my, I'mma say it again
Somebody alert the authorities, I got criminal intent

- Will the defendant please rise? State your full name for the record.
- Robyn
- Do you wish to say anything before the sentence is imposed?
- I do your Honor!

You know, from time to time
I need to get down
Unwind and just bump and grind
Get my shot on, have some fun
A little dirty never hurt anyone
I admit, I can get somewhat X-rated on the floor
But your Honor, how's that something you get incarcerated for?

I-I-I done nothing that's wrong
?? something that's frowned upon
I object most strongly Judge, they played my song

Somebody alert the authorities, I got criminal intent
Conspiracy to engage in lewd and indecent acts and events
I'mma wind it, grind it, oh my, I'mma say it again
Somebody alert the authorities, she's got criminal intent

Somebody alert the authorities, I got criminal intent
Conspiracy to engage in lewd and indecent acts and events
I'mma wind it, grind it, oh my, I'mma say it again
Somebody alert the authorities, I got criminal intent
Somebody alert the authorities, she's got criminal intent

Y-yo-yo Judge, may the record reflect the fact
I don't have any priors
Besides, would you pardon me
For being inappropriately attired?
But yo, listen, them cuffs down at county
Totally ripped up my pantyhose
And some snitch punk at legal aid
Stole my voucher for court clothes

I done nothing that's wrong

?? something that's frowned upon
I object most strongly Judge, they played my song

Somebody alert the authorities, I got criminal intent
Conspiracy to engage in lewd and indecent acts and events
I'mma wind it, grind it, oh my, I'mma say it again
Somebody alert the authorities, she's got criminal intent

Somebody alert the authorities, I got criminal intent

loveandunderstanding
"Love And Understanding"
```

Here, here in this world
Where do we go? Where can we turn?
When we need some love
It seems that love just can't be found
Where, where do we stand?
When love's supply don't meet love's demand

We got enough stars to light the sky at night
Enough sun to make to make the whole world bright
We got more than enough
But there's one thing there's just not enough of

Not enough love and understanding
We could use some love to ease these troubled times
Not enough love and understanding
Why, oh why?

Spend all of our time
Building buildings up to the sky
Reaching everywhere
But where we need to reach the most
Hearts never can win
Oh, in this race, this race that we're in

We've got enough cars to drive around the world
Enough planes to take us anywhere
We got more than enough
But there's one thing there's just not enough of

Not enough love and understanding
We could use some love to ease these troubled times
Not enough love and understanding
Why, oh why?

Not enough love and understanding
We could use some love to ease these troubled times
Not enough love and understanding
Why, oh why?

We need some understandin'
We need a little more love
Some love and understandin'

Enough stars to light the sky at night
Enough sun to make the whole world bright
Enough hearts to find some love inside
We got more than enough
But there's one thing there's just not enough of

Not enough love and understanding
We could use some love to ease these troubled times
Not enough love and understanding
Why, oh why?
…

ifoundyoulove
"I Found You Love"

Well I was looking for a new love, a different kind of true love
Who's gonna treat me right, all day and night
Hey baby I've been looking too
And I have found there's
No other love from me but you
Well I was looking for a new love
A different kind of true love
Who's gonna treat me right
Day and night
Well I found what I was after
Now my life is filled with laughter
I found you love
I was lost with no direction
Then my life was one big question
I was down and out
Filled with doubt
Found what I was after
Now my life is filled with laughter
I found you love
I found you love
I found a new love
He's wonderful and true
He's gonna spent his money
He's gonna call me honey
I gonna tease her
Oh Lord, I gonna squeeze her
Gonna love her plenty
She's gonna make me manly
We're gonna hold love while we can
I've been looking for a new love
A different kind of true love
Who's gonna treat me right
Every day and every night
Now I found what I was after
Now my life is filled with laughter
I found you love
I found you love
I found a new love
He's wonderful and true
He's gonna spent his money
He's gonna call me honey
I gonna please her

Oh Lord, I gonna squeeze her
Gonna love me madly
I'm gonna love her gladly
We're gonna hold love while we can
We're gonna hold love while we can

perfection
"Perfection"

Hush little Baby, gotta be strong
'Cause in this world we are born to fight
Be the best, prove them wrong
A winner's work is never done, reach the top, number one

Oh, perfection
You drive me crazy with perfection
I've worn my pride as my protection
Perfection, ohh

I was taught to be tough
That the best that you can be ain't enough
Crack the whip, sacrifice
But I found out paradise had a price

I didn't know it then, but oh I know it now
You gotta work as hard as love to make the love work out
You know this heart of mine has made some big mistakes
I guess that when it comes to love, I just don't know what I takes

All my life I've been driven by perfection
Pushed it to the limit every day and night
Ohh, I've been driven by perfection
But nothing's perfect when love ain't right
Nothing's perfect when the love ain't right

Gave it all, played my part
I gave everything I had but my heart
Worked so hard, made a name
But the loneliness inside stays the same

When love is here today, and then it's gone today
You got a list of lovers lookin' like a resume
You gotta take some time to make it something real
I guess that when it comes to love, I just don't know how to feel

All my life I've been driven by perfection

Pushed it to the limit every day and night
Ohh, I've been driven by perfection
But nothing's perfect when love ain't right
Nothing's perfect when the love ain't right

Oh, perfection
You drive me crazy with perfection
I've worn my pride as my protection
I'm goin' crazy with perfection

Ohh, I didn't know it then, but oh I know it now
You gotta work as hard as love to make the love work out
You know this heart of mine has made some big mistakes
I guess that when it comes to love, I just don't know what I takes

I've been driven by perfection
Pushed it to the limit every day and night
Ohh, I've been driven by perfection
But nothing's perfect when love ain't right

All my life I've been driven by perfection
Pushed it to the limit every day and night
Ohh, I've been driven by perfection
But nothing's perfect when love ain't right

All my life I've been driven by perfection
Pushed it to the limit every day and night
Ohh, I've been driven by perfection
But nothing's perfect when love ain't right

All my life I've been driven by perfection

bangbang
"Bang-Bang"

Bang bang you shot me down
Bang bang I hit the ground
Bang bang that awful sound
Bang bang my baby shot me down

I was five and you were six
We rode on horses made of sticks
I wore black you wore white
You would always win the fight

Bang bang you shot me down

Bang bang I hit the ground
Bang bang that awful sound
Bang bang my baby shot me down

Seasons came and changed the time
I grew up I called you mine
You would always laugh and say
Remember when we used to play

Bang bang you shot me down
Bang bang and I hit the ground
Bang bang that awful sound
Bang bang my baby shot me down

Music played and people sang
Just for me the church bells rang
After echoes from a gun
We both vowed that we'd be one

Now you're gone I don't know why
Sometimes I cry
You didn't say goodbye
You didn't take the time to lie

Bang bang you shot me down
Bang bang I hit the ground
Bang bang that awful sound
Bang bang my baby shot me down

Bang bang you shot me right between my eyes
Bang bang you can't go paralyzed
Bang bang bang bang bang bang
Bang bang oh baby I'm laying on the ground
Bang bang I'll never come around

Bang bang
Bang bang
Oh baby
Bang bang
Oh baby come and wrap me
Bang bang
You see how sweet it's gonna be

Bang bang
Bang bang
Bang bang
Oh my baby my baby shot me down
Bang bang

I'm up on the ground now

bangbangmybabyshotmedown
"Bang Bang (My Baby Shot Me Down)"

I was five and he was six
We rode on horses made of sticks
He wore black and I wore white
He would always win the fight

Bang bang, he shot me down
Bang bang, I hit the ground
Bang bang, that awful sound
Bang bang, my baby shot me down

Seasons came and changed the time
When I grew up I called him mine
He would always laugh and say
Remember when we used to play

Bang bang, I shot you down
Bang bang, you hit the ground
Bang bang, that awful sound
Bang bang, I used to shoot you down

Music played and people sang
Just for me the church bells rang

Now he's gone I don't know why
And 'til this day, sometimes I cry
He didn't even say goodbye
He didn't take the time to lie

Bang bang, he shot me down
Bang bang, I hit the ground
Bang bang, that awful sound
Bang bang, my baby shot me down

outrageous
"Outrageous"

Outrageous, outrageous
(They say) I'm outrageous
It's the rage

I'm gonna wear what I will and spend some
And I will be dress to kill don'tcha know
And when the lights come up
I'm ready I'm ready
To put on a show with class
And if I clash it's cause I want to
What a show and I want everyone to know
They're gonna fly up, get an eyeful
Everything that's craved from me
I'm gonna be, I'm gonna be outrageous

Outrageous
(They say) I'm outrageous
It's the rage it's the rage

With my long black hair hanging way down to my
Ask me no questions and I'll tell you no lies
Don't tell me what to do don't tell me what to be
See I don't trust anybody else's traits about make-up and me

Well in my show I let everything go
Is what you want is whatcha wanna see from me
But when the curtain comes down
And you're on your way back home
I change into my jeans that are split at the seam
I grab my funky black jacket and make quite a racket
You drive like you're an outlaw
Cause everything that's craved from me
I'm gonna be, I'm gonna be outrageous

So outrageous
I'm outrageous honey yes a rage
It's the rage
Outrageous, outrageous
I'm outrageous
It's the rage it's a rage
Outrageous, outrageous
They say I'm outrageous

## 1.4 Sentiment Analysis on Twitter Descriptions

In this section, define two sets of emojis you designate as positive and negative. Make sure to have at least 10 emojis per set. You can learn about the most popular emojis on Twitter at the emojitracker.

Associate your positive emojis with a score of +1, negative with -1. Score the average sentiment of your two artists based on the Twitter descriptions of their followers. The average sentiment can just be the total score divided by number of followers. You do not need to calculate sentiment on non-emoji content for this section.

```python
[40]: # your code here
      positive_emojis = {' ', ' ', ' ', ' ', ' ', ' ', ' ', ' ', ' ', ' '}
      negative_emojis = {' ', ' ', ' ', ' ', ' ', ' ', ' ', ' ', ' ', ' '}
      sentiment = {}
      sentiment.update({emoji: 1 for emoji in positive_emojis})
      sentiment.update({emoji: -1 for emoji in negative_emojis})
```

```python
[41]: #Twitter
      avg_sentiments = {}
      for artist, content in twitter_data.items():
```

```
    total_score = 0
    count = 0
    for c in content:
        score = 0
        for char in c:
            score += sentiment.get(char, 0)
        total_score += score
        count += 1
    avg_sentiments[artist] = total_score / count if count > 0 else 0

print(avg_sentiments)
```

{'cher': 0.00888679394533499, 'robynkonichiwa': 0.003995836739932975}

Q: What is the average sentiment of your two artists?

A: Cher': 0.00888679394533499, Robyn: 0.003995836739932975

---

Q: Which positive emoji is the most popular for each artist? Which negative emoji?

A: The most popular emoji for each artist is the smiley face while the negative emoji is the heart-break
